

R E S O L U T I O N

WHEREAS, Charles Gray is the owner of a .35-acre parcel of land in the 8th Election District of Prince George's County, Maryland, and being zoned R-R/L-D-O; and

WHEREAS, on March 28, 2006, Charles Gray filed an application for approval of a Chesapeake Bay Critical Area Conservation Plan for the purpose of obtaining a building permit for the construction of a single-family residence at 12512 Arrow Park Drive in the Chesapeake Bay Critical Area; and

WHEREAS, the application for approval of the aforesaid Chesapeake Bay Critical Area Conservation Plan, also known as Conservation Plan CP-06004 for Tantallon on the Potomac, was presented to the Prince George's County Planning Board of The Maryland-National Capital Park and Planning Commission by the staff of the Commission on October 19, 2006, for its review and action in accordance with Zoning Ordinance, Subtitle 27, Prince George's County Code; and

WHEREAS, the staff of The Maryland-National Capital Park and Planning Commission recommended APPROVAL of the application with conditions; and

WHEREAS, on October 19, 2006, the Prince George's County Planning Board heard testimony and received evidence submitted for the record on the aforesaid application.

NOW, THEREFORE, BE IT RESOLVED, that pursuant to the provisions of Section 27-548.11 of Subtitle 27, Prince George's County Code, the Prince George's County Planning Board APPROVED Conservation Plan CP-06004, Tantallon on the Potomac for Lot 23.

BE IT FURTHER RESOLVED, that the findings and reasons for the decision of the Prince George's County Planning Board are as follows:

**1. Site Description**

The 0.35-acre property in the R-R/L-D-O zones is on the west side of Arrow Park Drive approximately 200 feet north of its intersection with West Tantallon Drive and is located within the Chesapeake Bay Critical Area. The 100-foot-wide Critical Area Primary Buffer and expanded buffer do not occur on the property. There are no streams, wetlands, 100-year floodplain or steep slopes on the site. The site is mostly wooded. No Historic or Scenic roads are affected by this proposal. There are no significant nearby noise sources and the proposed use is not expected to be a noise generator. No species listed by the State of Maryland as rare, threatened or endangered are known to occur in the general region. A Stormwater Design Plan has been approved by DER. The Prince George's County Soils Survey indicates that the principal soils on the site are fill over Tidal Marsh series. The site is in the Developing Tier according to the General Plan.

**2. Findings**

On April 21, 2006, the Subdivision Review Committee determined that the Conservation Plan was in general conformance with the requirements of the R-R Zone, the L-D-O Zone, and the "Chesapeake Bay Critical Area Conservation Manual," however, technical errors were found. Revised plans were accepted on September 13, 2006. This site is not subject to the provisions of the Woodland Conservation and Tree Preservation Ordinance because the entire site is within the Chesapeake Bay Critical Area. Based upon information provided by the State of Maryland, the plan correctly indicates there are no threatened or endangered species, no colonial waterbird nesting sites, no forests with interior dwelling bird species, no Natural Heritage Areas, no waterfowl staging areas, no anadromous fish spawning streams, no wetlands, and no tributary streams on the site. The maximum amount of impervious surface permitted per Section 27-548.17, footnote 4 A(ii) of the Zoning Ordinance is 25% of the gross tract area or 3,850.25 square feet. The plan proposes total impervious surface areas of 3,419 square feet or 21.2%. The maximum Percentage of Lot Coverage permitted by the Zoning Ordinance for Lot 26, per Section 27-442 Table II of the Zoning Ordinance, is 25% of the contiguous net tract area or 3,850.25 square feet. The proposed Percentage of Lot Coverage is 3,419 square feet or 21.2%. The Prince George's County Department of Environmental Resources will require a soils report in conformance with CB-94-2004 during the permit process review. A Stormwater Design Plan has been approved by the Prince George's County Department of Environmental Resources. No variances are needed for this proposed development.

BE IT FURTHER RESOLVED, that an appeal of the Planning Board=s action must be filed with Circuit Court for Prince George=s County, Maryland within thirty (30) days following the adoption of this Resolution.

\* \* \* \* \*

This is to certify that the foregoing is a true and correct copy of the action taken by the Prince George's County Planning Board of The Maryland-National Capital Park and Planning Commission on the motion of Commissioner Eley, seconded by Commissioner Squire, with Commissioners Eley, Squire and Parker voting in favor of the motion, with Commissioner Clark temporarily absent, and with Commissioner Vaughns absent at its regular meeting held on Thursday, October 19, 2006, in Upper Marlboro, Maryland.

Adopted by the Prince George's County Planning Board this 9th day of November 2006.

Trudye Morgan Johnson  
Executive Director
