**THE MARYLAND-NATIONAL CAPITAL  
PARK AND PLANNING COMMISSION**

**PRINCE GEORGE'S COUNTY PLANNING BOARD**

**STAFF REPORT**

**SUBJECT:** Chesapeake Bay Critical Area  
Conservation Plan and Conservation Agreement CP-01016  
Swan Lake, Lot 12, Block D

Council District: 9      Planning Area: 80      Municipality: None

**OVERVIEW:**

The proposal is for the construction of a single-family detached dwelling on a property in the R-R/L-D-O Zones recorded prior to December 1, 1985. A critical area conservation plan is required prior to the issuance of a permit by the Prince George's County Department of Environmental Resources. The Planning Board is the final approving authority for Chesapeake Bay critical area conservation plans.

**SITE DESCRIPTION:**

The 0.79-acre property is on the north side of Swan Creek Road about 2,000 feet west of Fort Washington Road. There are no floodplains, streams, or wetlands on the property. Current air photos indicate that most of the site is wooded. No Historic or Scenic roads are affected by this proposal. There are no significant nearby noise sources and the proposed use is not expected to be a noise generator. No species listed by the State of Maryland as rare, threatened or endangered are known to occur in the general region. According to the sewer service and water service maps produced by DER, the property is in categories S-3 and W-3. A stormwater design plan has been approved by the Prince George's County Department of Environmental Resources. The soils information included in the review package indicates that the principal soils on the site are in the Keyport soil series.

**FINDINGS:**

On December 21, 2001, the Subdivision Review Committee determined that the conservation plan was in general conformance with the requirements of the R-R Zone, the L-D-O Zone, and the *Conservation Manual*. Some minor technical changes have been made to bring the plan into complete conformance with all regulations. The revised plan, accepted by the Prince George's County Department of Environmental Resources on October 21, 2002, has been determined to meet all applicable requirements.

**RECOMMENDATION: APPROVAL**
