

66-042-31 Holbrook House

4618 College Avenue

College Park

Built in 1927 for the William A. Holbrook family, this is a two-story, stucco-covered frame dwelling in the Spanish Mission style. It has a hip roof and decorative shaped parapets. It was built from the “Alhambra” model, one of the more distinctive and recognizable models offered by Sears, Roebuck and Company. It is an excellent example of a mail-order house, and one of two known examples of the “Alhambra” model in Prince George’s County (see also Historic Site 69-024-22).
