

**67-022-12 Stoner-Chlopicki House**

**5717 Ruatan Street**

**Berwyn Heights**

Shown above in a vintage photograph taken soon after it was built in 1889, this house has been in the Chlopicki family since 1928. It was built for Elizabeth Stoner using a pattern from R. W. Shoppell's Cooperative Building Plan Association catalog. Distinguished by its three story pyramidal roof tower, lunettes, wraparound porch and cross gables sheathed in dogtooth shingles, the house is now surrounded by lush vegetation.
