

70-052-27 St. George's Episcopal Chapel and Cemetery

7010 Glenn Dale Road

Glenn Dale

Built in 1892, St. George's is a frame church building with steeply pitched gable roof, ornamental shingle siding in the gable front and a stained glass altar window. An ancient graveyard adjoins the church. The chapel was built to replace the 1873 mission chapel of Holy Trinity Episcopal Church in the railroad community of Glenville (now Glenn Dale). Recently restored, it is a fine example of late Victorian Gothic ecclesiastical architecture.
