

## **71B-019 Colbert Family Farm Site (18PR950)**

### **Race Track Road**

#### **Bowie**

Active from 1860–1940, the site contains the archeological remains of the farm residence of the Calvert/Colbert family, who were free blacks. The Colberts worked for the railroad and were also farmers. The intact cultural features could shed light on the lives of the African-American family who lived here after the Civil War.
