

73-007 The Cottage at Warington

3102 Lottsford Vista Road

Mitchellville

(M-NCPPC)

Built in 1842, the Cottage at Warington is a one-and-one-half-story frame house with a “catslide” or saltbox roof, and two exterior chimneys of local sandstone; carved into one of the chimney stones is the date “1842.” The house was built that year for Washington Hilleary and later became one of the farms of Marsham Waring’s large Warington estate. It is a unique example in Prince George’s County of a small plantation dwelling with saltbox roof profile.
