

74B-006 Carroll Methodist Chapel and Cemetery

1811 Mitchellville Road

Mitchellville

Built circa 1900, Carroll Chapel is a front-gabled frame structure of meetinghouse style; entrance is through a small vestibule in the gable front. This chapel replaces, and may even incorporate, part of the chapel that served the local black Methodist population from as early as 1877, as recorded in the Methodist Circuit records of Pastor O. Carroll. It is representative of modest country churches of the turn of the twentieth century.
