

87A-012 Poplar Hill School

19104 Croom Road

Brandywine

This school replaced an earlier school constructed for African-American children in the rural Aquasco District that was known as Black Swamp School (see 87A-057). The Board of School Commissioners purchased two acres of land from Annie R. Lattimer and the new Poplar Hill School, officially Colored School 2, District 8, was constructed in 1936. The new school was in use for less than two decades. In 1952 it was sold to the Pride of Prince George's Lodge 1003 I.B.P.O.E.W. Today the exterior is much altered; the windows are smaller than the originals and the wood weatherboard has been covered with aluminum siding.
