TREE CONSERVATION PLAN TYPE II

TREE CONSERVATION PLAN TYPE II
DSP-10036
TRIANGLE/COLLINGBROOK

14 TH ELECTION DISTRICT
PRINCE GEORGE'S COUNTY, MD

1. Reforestation and afforestation areas shall be planted prior to the occupancy of the nearest building or residence. If planting cannot occur due to planting conditions, the developer or property owner shall install the fencing and signage in accordance with the approved Type II Tree Conservation Plan. Planting shall then be accomplished during the next planting season. If planting is delayed beyond the transfer of the property title, to the homeowner, the developer shall obtain a signed statement from the purchaser indicating that they understand that the reforestation area is located on their property and that reforestation will occur during the next planting season. A copy of that document shall be presented to the Grading Inspector and the Environmental Planning Section.
2. Reforestation areas shall not to be mowed, however, the management of competing vegetation around individual trees is acceptable.
